The image shows two cylindrical objects side-by-side. The one on the left is a light blue, smooth cylinder. The one on the right is a black cylinder with a textured surface, showing several small, circular, light-colored patches or indentations, likely representing the 'after' state of a repair or treatment.

A black, aerodynamic car antenna with a white connector cable. The antenna has a sleek, curved design with a vertical fin and a rounded base. The cable is black with a white plastic connector at the end.
